Engine	
Make / Model Cooling Maximum power at 2300 RPM (ISO 14396) Rated RPM (EEC 80/1269, ISO 9249) Torque at 1600 RPM (ISO 9249) Gross Number of cylinders Displacement Bore Stroke Lubrication Crankcase ventilation Air filter Ignition Starting aid  Electrical	Kubota / V1505-T4F-ST5 Liquid 18.2 kW 2300.0 RPM 86.4 Nm 4 1498 cm³ 78.0 mm 78.4 mm Gear pump pressure system with filter Closed breathing Dry replaceable cartridge with separate safety element Compression (diesel) Glow plugs
Alternator	Belt driven — 90 A — ventilated
Battery	12 V — 600 A cold cranking at -18°C — 115 min reserve capacity
Starter	12 V — gear reduction type — 2.0 kW
Hydraulic System	
Pump type Pump capacity System relief at quick couplers Control valve  Hydraulic filter Fluid lines	Engine driven, gear type 36.00 L/min 20.7 MPa Three-spool, open-centre type with float detent on lift and auxiliary spool with detent in one direction (manual) Full-flow replaceable — 3 µm synthetic media element SAE standard tubelines, hoses, and fittings

# \$100 | Loaders | Specifications

Hydraulic Cylinders	
Lift cylinder (2)	Double-acting
Lift cylinder bore	50.8 mm
Lift cylinder rod	31.8 mm
Lift cylinder stroke	653.5 mm
Tilt cylinder (2)	Double-acting with cushioning feature on dump and
	rollback
Tilt cylinder bore	57.2 mm
Tilt cylinder rod	31.8 mm
Tilt cylinder stroke	307.1 mm
Drive System	
Transmission	Infinitely variable tandem hydrostatic piston pumps, driving two fully reversing hydrostatic motors
Final drive chains	Pre-stressed #80 HSOC endless roller chain (no master
	link) and sprockets in sealed chaincase with oil lubrication.
	(Chains do not require periodic adjustments.) Two chains
	per side with no idler sprocket.
Main drive Axle size	Fully hydrostatic; four-wheel drive 44.5 mm, heat treated. Axle tubes welded to chaincase.
Wheel bolts	Six 9/16–inch wheel bolts fixed to axle hubs
Wheel boils	Six 3/10—inch wheel boils lixed to axie hubs
Traction	
Heavy duty tyres	27 x 8.50-15, 6–ply, Bobcat heavy duty tyres
Max. travel 1 speed (manual controls)	8.2 km/h
Max. travel 2-speed (SJC controls)	13.4 km/h
Fluid Capacities	
Chaincase reservoir	22.00 L
Cooling system	11.00 L
Engine oil with filter	4.50 L
Fuel tank	45.00 L
Hydraulic / Hydrostatic system	22.00 L
Hydraulic reservoir / filled volume	18.50 L

13.00 L

Hydraulic reservoir / filled volume

Hydraulic fluid

Bobcat PG Coolant 5 I can - 6904844A 25 I container - 6904844B 209 I drum - 6904844C 1000 I tank - 6904844D Oil must meet API Service Classification of CD, CE, CF4, CG4, or better.

Recommended SAE viscosity number for anticipated

\* Can be used only when available with appropriate diesel rating.

For synthetic oil use the recommendation from the oil manufacturer.

Bobcat Superior SH 5 I can - 6904842A 25 I container - 6904842B 209 I drum - 6904842C 1000 I tank - 6904842D Bobcat Bio Hydraulic 5 I can - 6904843A 25 I container - 6904843B 209 I drum - 6904843C 1000 I tank - 6904843D

temperature range.

# S100 Loaders Specifications

#### **Controls**

Engine Hand lever throttle

Starting Key-type starter switch and shutdown. Glow plugs

automatically activated on standard instrumentation panel.

Front auxiliary (standard)

Lateral movement of right-hand steering lever

Loader hydraulics tilt and lift Separate foot pedals

Service brake Two independent hydrostatic systems controlled by two

hand-operated steering levers

One of the hydrostatic transmissions

Parking brake Mechanical disk, hand-operated rocker switch on dash

anel

Vehicle steering Direction and speed controlled by two hand levers

Lateral movement of right-hand steering lever after engine

has been shut off.

#### Instrumentation

Auxiliary pressure release

Secondary brake

The following loader functions are monitored by a combination of gauges and warning lights in the operator's line of sight. The system alerts the operator of monitored loader malfunctions by way of audible alarm and visual warning lights.

Standard Instrument Panel Deluxe Instrument Panel (Option)

#### Serviceability

Access is available to the following through the rear door/tailgate and rear screen:

- · Air cleaner
- Alternator
- Battery
- · Cooling system (engine oil and hydraulic oil coolers easily separable) for cleaning
- · Engine oil and fuel filters
- · Engine oil drain and dipstick
- · Hydraulic oil fill (access at the side of the machine)
- Starter

Axle hubs provide protection for the axle seals

Bob-Tach™ pivots have replaceable wear bushings

Easy access to all lift arm grease points

Rod end of the tilt cylinder has a replaceable bushing

Tailgate has an optional lock for vandal-proofing

Tailgate is equipped with door-stop to hold door open while servicing

Tip-up operator cab gives access to certain hydraulic system components

#### **Standard Features**

- Bobcat Interlock Control System (BICS)
- · Hand and Foot Controls
- Operator cab Deluxe <sup>1</sup>
- · Standard Seat
- · Seat belt
- Seat bar
  Bob-Tach™ frame
- 27 x 8.50-15, 6–ply, Bobcat heavy duty tyres
- Auxiliary hydraulics: variable flow/maximum flow
- · Operating lights, front and rear

\$100 | Loaders | Specifications

- · Lift arm support
- · Parking brake
- · Spark arrestor muffler
- · Engine/hydraulics system shutdown
- · Automatically activated glow plugs
- Instrumentation
- Warranty: 12 months or 2000 hours (whichever occurs first)

### **Options**

- · Factory Options
  - Selectable Joystick Controls (SJC)
  - Two speed with 3-point belt
  - Deluxe operator cab with heating
  - · Cloth Suspension Seat
  - Vinyl Suspension Seat
  - Keyless start with password capability
  - Power Bob-Tach™
  - Hydraulic bucket positioning (including ON/OFF switch)
  - Back-up alarm
  - 28x9-15 Hard Duty Solid Tyres
  - Road kit
  - Beacon
- · Dealer Installed Options
  - · Cab enclosure kit
  - · Lexan rear window kit
  - Counterweights
  - Side windows kit
  - Top window kit Lexan
  - Front door kit
  - Lexan door kit
  - Special applications front door kit
  - Counterweight kit
  - Single-point lift kit
  - Hydraulic bucket positioning kit
  - Power Bob-Tach™ kit
  - Back up alarm kit
  - Fire extinguisher kit
  - Fresh air heater kit
  - Plumbing kit for fresh air heater
  - Rear window wiper kit
  - Warning lights: rotating beacon, strobe light
  - Seat belt kit
  - Third gas spring kit (for heated cab)
  - Additional gas spring kit (for tipping the cab)
  - Tailgate lock kit
  - Fuel cap locking kit
  - · FOPS kit

<sup>1.</sup> Roll Over Protective Structure (ROPS) – meets requirements of SAE-J1040 and ISO 3471; Falling Object Protective Structure (FOPS) - meets requirements of SAE-J1043 and ISO 3449, Level I. Cab Deluxe includes Interior cab foam, top and rear windows, deluxe wire harness, domelight and electrical power port.

### Safety

Bobcat Interlock Control System (BICS), standard

Lift arm bypass control, standard

Seat belt, standard

Seat bar, standard Operator cab, standard

Lift arm support, standard Parking brake, standard Grab handles, standard Safety tread, standard

Attachment steps, standard Rear window, standard Front and rear work lights, standard Back-up alarm, optional Lift kits, optional

Special applications kit, optional Operator handbook, standard

Requires the operator to be seated in the loader with the seat bar in place and the engine running. After the operator presses the "Press to Operate Loader" button, the loader's hydraulic lift and tilt functions and traction drive can be operated.

Used to lower the lift arms in the event that the lift arms cannot be lowered during normal operating conditions. Should always be worn when operating the loader. Three-point shoulder belt provides restraint for high range speeds.

Secondary operator restraint, also serves as an arm rest. An enclosed operator cab with side screens with a minimal inside cab width of 838 mm. Meets SAE-J1040 and ISO 3471 for Roll Over Protective Structure (ROPS) and SAE-J1043 and ISO 3449 Level I \* for Falling Objects Protective Structure (FOPS). Level II \*\* option is available. \* Level I — Acceptance is intended for protection from falling bricks, small concrete blocks, and hand tools encountered in operations such as highway maintenance, landscaping, and other construction site services.

\*\* Level II — Acceptance is intended for protection from falling trees or rocks for machines involved in site clearing, overhead demolition, or forestry.

Use for servicing when lift arms are raised.

Always set brake when leaving loader.

Should always be used when entering/exiting loader. Slip resistant tread on lift arms and main frame to be used when entering/exiting loader.

Should always be used when entering/exiting loader. For emergency exit.

Use for indoor and low light operation.

For use in areas with high traffic

Lift kits are available so loader may be lifted into remote areas.

Restricts objects and material from entering cab openings. Weather-resistant operator handbook attached to the inside of the cab, providing operational instructions and warnings decals with pictorials and international symbols.
